Experience

Staff Product Designer

Cloudaware · Aug 2024 – Present · Hungary, Remote

CMDB — Complete Multi-Cloud Management Platform

– Design across Cloudaware's full product — a multi-cloud CMDB / cloud management platform for resource inventories, configurations, and permission-based access across AWS, Azure, GCP.

– Reworked the flow for adding cloud infrastructure during onboarding, making setup faster and less error-prone.

– Initiated and created the Design System, evolving its token structure and implementation strategy.

– Established a component-based workflow, reducing UI dev time by 70% and feature delivery by 3–4 months.

– Built a shared design process across Product, Design, Engineering, and Marketing.

– Integrated AI into daily workflows — **Claude Code, VS Code, and Figma AI** — to speed up implementation and ideation.

– Mentored team members to foster professional growth.

Senior Product Designer

Cloudaware · Mar 2023 – Aug 2024 · Hungary, Remote

– Designed the MVP of a Visual Query Builder — aggregation logic, chart settings, filtering, and query configuration.

– Improved self-service onboarding, increasing user conversion by 28%.

– Generated, tested, and validated design hypotheses to improve UX and product performance.

– Explored and proposed innovative design solutions to meet business and user needs.

Senior Product Designer

MTS · Jul 2022 – Jul 2023 · Moscow

– Owned end-to-end product design, from discovery to implementation and launch.

– Improved the MTS ID experience, simplifying journeys for 80M+ users.

– Designed the digital onboarding journey, growing online self-service migration by 40%.

– Improved online SIM-ownership, contributing to a 35% increase in conversions.

– Established a more consistent user flow across MTS ID.

– Partnered with Product, Engineering, and Business to balance user needs, goals, and constraints.

Movavi · Oct 2021 – Apr 2022

Product Designer

Movavi · Apr 2021 – Oct 2021

UX/UI Designer

PARMA Technologies Group · Dec 2019 – Apr 2021

UX/UI Designer

Scorista · Jun 2017 – Dec 2019 · Moscow, Russia

Web Designer

UNIO — Smart Home · May 2016 – Jun 2017 · Perm

Summary

Staff/Senior product designer with 10+ years of experience across **B2B and consumer platforms** — fintech, SaaS, cloud infrastructure, and data-heavy interfaces.

Currently at Cloudaware, designing a complete **multi-cloud CMDB** platform — resource inventory, configuration management, and permissions across **AWS, Azure, and GCP**. I help companies turn complex challenges into simple, impactful user experiences — from fast MVPs to large-scale platforms — and improve design/dev processes between teams.

I've built and scaled **design systems**, mentored designers, and simplified complex products for **80M+ users**, driving measurable improvements through data-informed **design with AI**.

Comfortable as a hands-on Staff/Senior IC, open to a team lead role. Passionate about building products that drive business results and are genuinely easy to use. ☀
